4.B class in Šumperk school

„ Teachers from foreign countries came to our school. These were Riitta and Timo from Finland, Anna and Uwe from Germany, Maryla and Agnieszka from Poland, Marianthi, Ifigeneia and Vasileos from Greece and Fadime and Ilhami from Turkey. They have seen our projects about water. We painted pictures of rivers, waterfalls, underground water and ponds, water animals and plants in our country, we also learned about them in History and Science. The most beautiful pictures we made were pictures of carps. We were reading about life-giving water also in Literature lessons, singing in Music lessons and playing different games. We liked our visitors from all the countries much.“
